A delegation of owners of property along the shores of Kellogg Lake, came before the Council. Mr. Charles Gelinsky, acting as spokesman for the group, illustrated on a map, the object of their visit and voiced their reauest for a larger opening from Kellogg Lake in to the river. Mr. Gelinski explained that if the lake outlet were to be increased in size to 3 feet by 9½ feet instead of the 20 inch pipe now in use, the larger outlet could be opened during late winter and early spring, thus increasing the velocity of the flow of water, narrow the channel and thereby wash hundreds of yards of silt, now left in the lake, into the river. Mr. Gelinski explained that the lake was now in danger of being filled with this silt. There was some discussion on the matter in which the question arose as to whether the State Highway Department or the City had installed the 20 inch outlet now used. It was moved by Sedgwick and seconded by Mortensen that if the Chairman of the Kellogg Lake Committee could show proof that the State Highway Department would have no obejction to the larger opening for the lake, the City furnish $250.00 from the Emergency Fund, toward the expense of having the larger opening installed. The Council passed the motion with one dissenting vote by Dr. Howard. The Mayor declared that the motion had been passed by the Council.
