historic themes and images

transportation

river and creek

industry

culture /
significant
events

historic themes and images

To provide both everyday interest, and special seasonal or weekly public event space

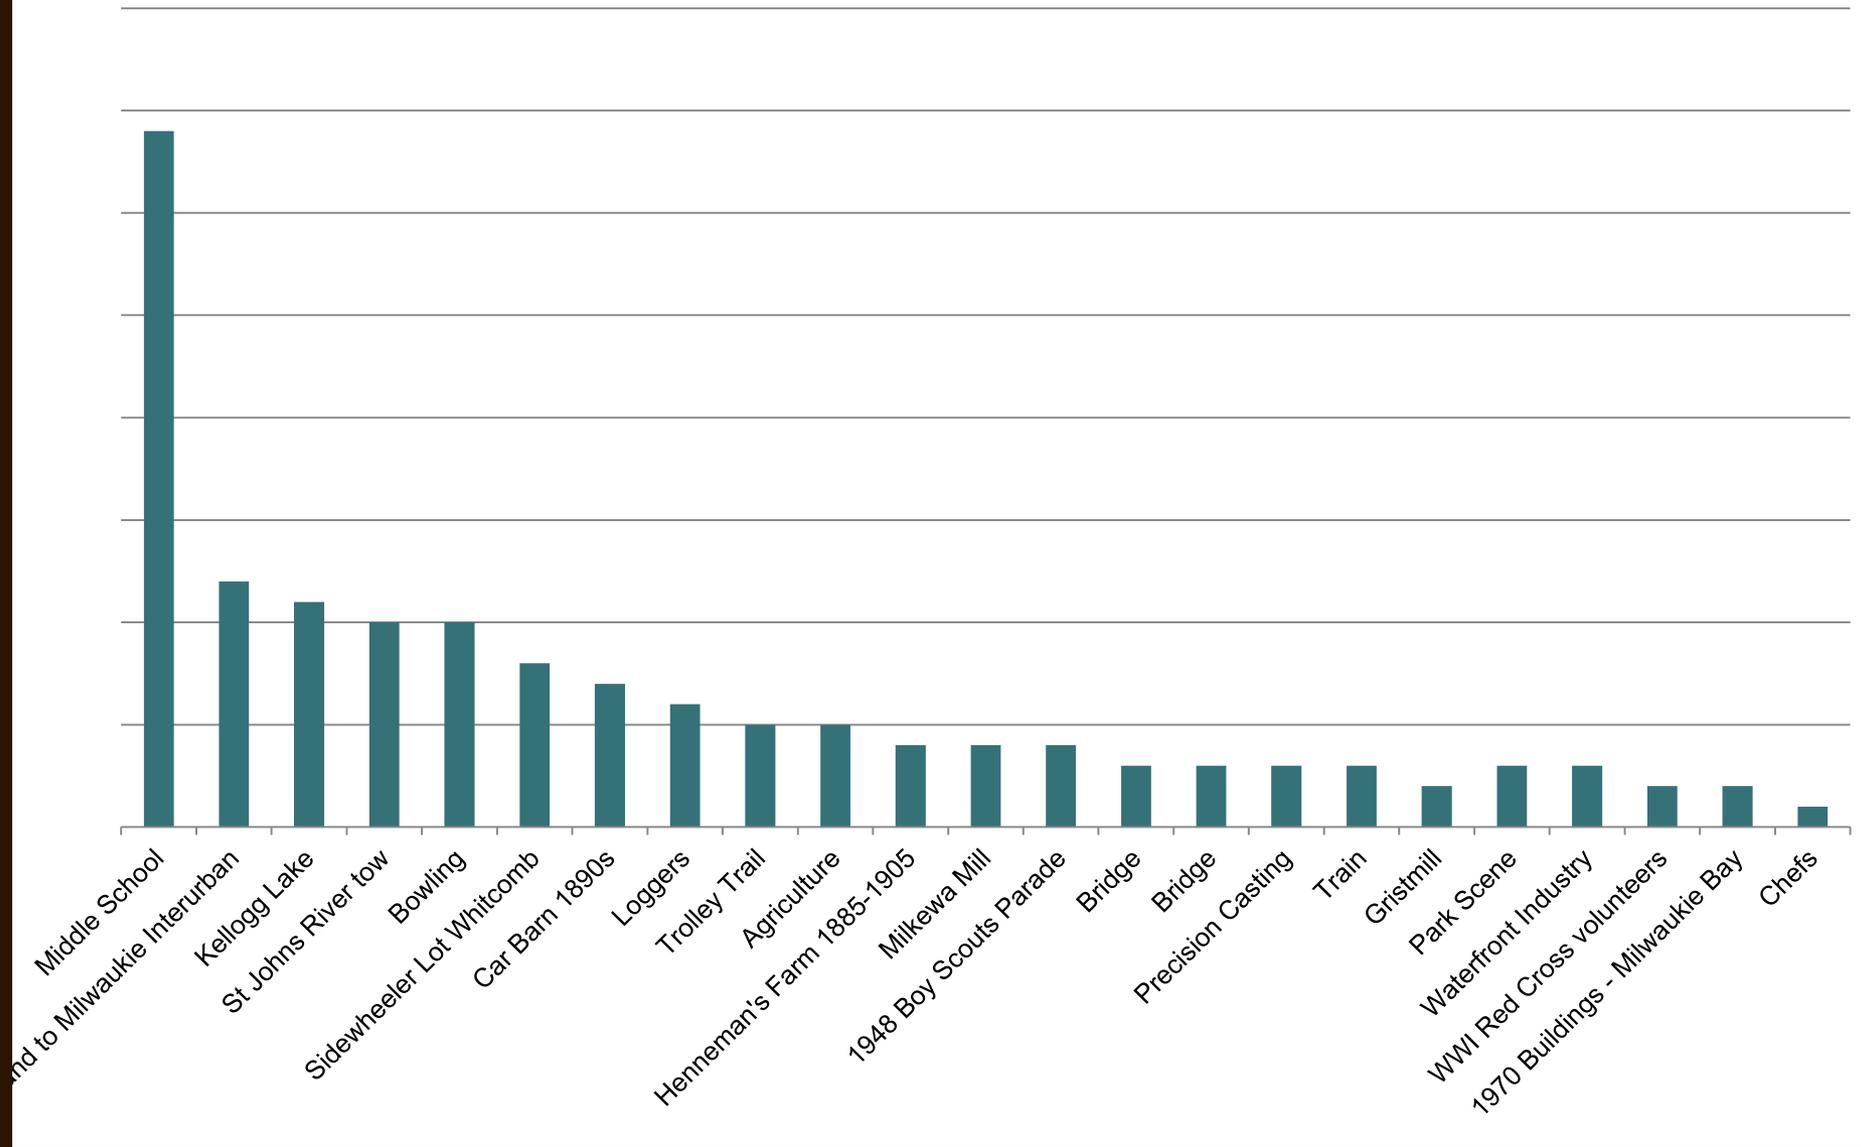

beacon – lantern design

I believe history is what makes it the present. Without history we have no past or future. It is through our past that we have a better future. I would like to see us honor our past and the individuals that gave us our future.

- Milwaukie Story submission

historic themes – all responses
