

ADA Transition Plan Comment Form

The City of Milwaukie created an ADA Transition Plan which details a comprehensive process toward full ADA compliance within the public right-of-way. The Plan identifies barriers in sidewalks and ramps and how the City will conduct improvements. The primary focus of the Plan is the enhancement of the pedestrian environment for all citizens, therefore public involvement is crucial. Thank you for taking the time to submit your input.

Commenter Information

Name: _____
Address: _____
City/State/Zip: _____
