fresh look MILWAUKIE: downtown ROAD MAP project

WALKING TOUR guide

THIS EVENT

This event is the continuation of a two month-long community engagement process. The project team (the City of Milwaukie and ALIGN Planning) is seeking input from as broad and diverse a range of Milwaukie community members as possible—whether or not you live in or visit Downtown!

Objectives

01 A fun, engaging activity to gather your opinion about what you like or don't like about specific elements of Downtown, and where you see "hidden gems," i.e. elements with potential to become a greater asset to Downtown Milwaukie

02 A walking tour provides an outdoors, interactive alternative that is more casual and creative than the traditional open house or workshop. Having you express your desires through photos will provide specific visual imagery to be included in our final report and recommendations.

03 This activity will require fairly little effort on your part. We only ask you to take photos and write a brief description/explanation of the photo you took on the photo log.

PROJECT OVERVIEW

Milwaukie has multiple core commercial areas, including downtown, central Milwaukie, and other smaller commercial nodes throughout the city. The Commercial Core Enhancement Program (CCEP) seeks to define what the community wants to see in these commercial areas and how to get it. The CCEP project kicked off in April 2013 and will be completed in four phases:

Phase 1

Fresh Look Milwaukie: Downtown Road Map

Phase 2

Downtown Plan and Code Major "Refresh"

Phase 3

Central Milwaukie Land Use & Transportation Plan

Phase 4

Neighborhood Main Streets Implementation

The Fresh Look Milwaukie: Downtown Road Map project aims to review the policies and regulations that shape development and uses in downtown Milwaukie to make sure that they reflect the community's desires for its downtown.

Fresh Look project goals include the engagement of present day Milwaukie community members, in order to identify priorities and values associated with Downtown Milwaukie. The results will provide a basis for making sure the current plans for downtown line up with the community's values and desires.
