G. Middle Housing Land Divisions

A middle housing land division is a partition or subdivision of a lot or parcel on which a middle housing project has been developed or approved for development under the provisions of this Code and ORS 197.758. Middle housing land divisions are regulated by this Code and ORS Chapter 92. Following the land division, the units of land created in a middle housing land division will be collectively considered a single lot along with the parent lot for all but platting and property transfer purposes under city code and state rules and statutes, including:

- a. Lot standards such as size, setback, lot coverage, and lot width and depth;
- b. Definition of unit types (e.g. a detached quadplex development where each unit is on its own lot through a middle housing land division would still be considered a detached quadplex development rather than single detached units);
- c. Allowed number of dwelling units and accessory dwelling units; and
- d. Compliance with Middle Housing rules and statutes in ORS 197 and OAR 660-046.

Applications for any land division affecting middle housing as provided in ORS 197.758 (2) must be processed as an expedited land division process as outlined in ORS 197.360 to 197.380. Pursuant to the expedited land division process, a middle housing land division

The Expedited Land Division/Middle Housing Land Division review process provides for review by the planning manager of an application based on provisions specified in this land use code. The application process includes notice to nearby occupants and property owners to allow for public comments prior to the planning manager's decision. Eligibility and approval criteria are detailed in Subsection 17.12.040.A.7.

G. Middle Housing Land Divisions

A middle housing land division is a partition or subdivision of a lot or parcel on which a middle housing project has been developed or approved for development under the provisions of this Code and ORS 197.758. Middle housing land divisions are regulated by this Code and ORS Chapter 92. Following the land division, the units of land created in a middle housing land division will be collectively considered a single lot along with the parent lot for all but platting and property transfer purposes under city code and state rules and statutes, including:

- a. lot standards such as size, setback, lot coverage, and lot width and depth;
- b. definition of unit types (e.g. a detached quadplex development where each unit is on its own lot through a middle housing land division would still be considered a detached quadplex development rather than single detached units);
- c. Allowed number of dwelling units and accessory dwelling units; and
- d. Compliance with Middle Housing rules and statutes in ORS 197 and OAR 660-046.

Applications for any land division affecting middle housing as provided in ORS 197.758 (2) must be processed as an expedited land division process as outlined in ORS 197.360 to

197.380. Pursuant to the expedited land division process, a middle housing land division will be processed according to Section 19.1005 Type II Review. Further division of the resulting lots or parcels in an approved middle housing land division is prohibited.

H. Expedited Land Division

Expedited land divisions are defined by ORS 197.360(1) and are processed according to Section 19.1005 Type II Review. The Expedited Land Division/Middle Housing Land Division review process provides for review by the planning manager of an application based on provisions specified in this land use code. The application process includes notice to nearby occupants and property owners to allow for public comments prior to the planning manager's decision. Eligibility and approval criteria are detailed in Subsection 17.12.040.A.7.
