- 2.) A search page will open. The dates at the top are automatically set to find anything in the last year. If you are searching for a permit with in the last year, change nothing. If you want to search for older permits, change the dates to the dates you'd like to search.
- 3.) Enter your search criteria. We've found it's better to search by one field at a time and to enter less information. For example:

If you're searching by <u>permit number</u>, enter only the permit number (including dashes) (you can use "%" as a wild card – Example: 601-18-0005%).

If you're searching by <u>address</u>, just enter the address numbers (not the street) and then select from the list.

Hint: If you search by street, the street name will not include directions (SE) (you can use "%" as a wild card - Example: Johns%).
