Name/Contact Info of Proposal Submitter: Vincent Alvarez

1. Project Location Washington St. from Oak St. to 35 Ave.

2. Project Description; please describe the project elements in detail. (If you have a sketch or "plan view" (i.e., sketch from above), please attach that. This will be helpful for PSAC members to understand exactly what is proposed.)

*Completing the sidewalks on the South side of the street.*

*Original, more desirable plan, was the installation of a permeable surface pathway on the North side of the street. This would have meandered around the major trees & bushes. Giving a more park like*

3. How does this project promote non-motorized use of the streetscape? *feeling, less structure.*

*This gives safer more defined walking route on Washington.*

4. How many neighbors have expressed support for this project? How was their input solicited?

*Did you field any opposition to this project? This met with overwhelming support at the Lake Rd. NDA meetings (especially the North side plan) Also I walked the route twice, knocking on doors. The residents I was able to speak with liked the idea of a North side path. They were OK with South side option as long as new walks matched the existing*

5. Do you propose to integrate an education and/or outreach component? If so, please describe it. *styl*

*No.*
