

LAKE ROAD IMPROVEMENTS

The Lake Road Improvements project is not quite complete, but we are ready to safely serve the students of Rowe Middle School, Milwaukie High School, and Milwaukie El Puente Elementary School!

Parts of the street are still in an active construction zone. Please stay on approved paths for your safety. The speed limit is 20 MPH throughout the construction site.

IMPORTANT NOTES:

- We will complete paving in time for school and two-way traffic from 21st Ave to 34th Ave will be back! But permanent striping will not be done yet, so the bike lanes will not be in place. Drivers, please use caution and watch for bicyclists.
- The sidewalk on the south side of Lake Rd is open. During traffic signal work at 34th Ave and Oatfield Rd, ask the crews for help when crossing the intersection.
- There are some driveway approaches on the north side that we are still working on. They should be complete by the end of September.
- All work from the traffic signal at 34th Ave and Oatfield Rd to the east will be complete by the end of October.
