

SE HOME AVENUE ROAD IMPROVEMENTS

Safe Access for Everyone (SAFE) is the City of Milwaukee’s program to improve safety for people walking, biking and more. SAFE calls for upgrading our network of connections such as sidewalks, ramps, and crossings to fill network gaps, replace portions that don’t meet American Disability Act (ADA) standards, and remove barriers for people safely get to where they need to go.

As part of this program, we will be making several updates to SE Home Ave between SE King Rd and SE Railroad Ave, including:

- **Constructing a continuous sidewalk on one side of SE Home Ave**
- **Replacing the sewer pipe** on SE Harrison St (between SE 47th Ave and SE Home Ave) and on SE Home Ave (between SE Harrison St and SE Monroe St)
- **Repaving SE Home Ave** from SE King Rd to SE Railroad Ave

These improvements will increase safety and improve walkability of the neighborhood, and address much needed wastewater repairs.

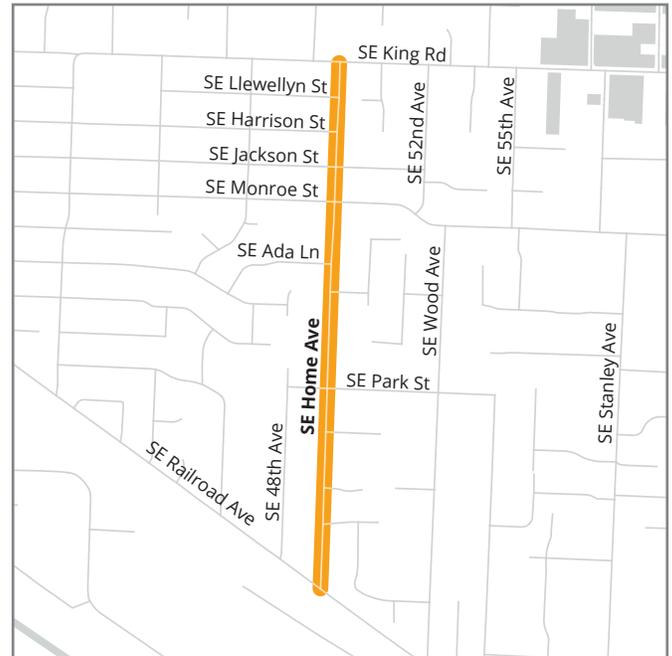

Timeline

Design of this project is just getting started. Crew members will begin surveying the area to better understand the site conditions in late June. The design phase will last through spring 2020, with construction anticipated to begin between fall 2020 and summer 2021.

There will be several opportunities for neighbors to learn more about the project. A neighborhood meeting and project tour will be held later this summer. Keep your eyes peeled for a Save the Date notice!
