1. GENERAL INFORMATION

1.1 Overview

The City of Milwaukie provides a full range of municipal services to the community, which includes police protection, traffic control and improvement, street maintenance and improvement, water, sewer, and surface water management services, planning and zoning regulation, building inspection and regulation, and community library services. This Master Fees Schedule consolidates all City fees and charges, adopted by City Council resolution, for the various services that the City provides. Typically, it is updated annually and reflects all fee resolutions passed by Council during the year. For easy reference, the current Master Fees Schedule booklet is available online at: <http://www.milwaukieoregon.gov/finance>.

1.2 Fee waiver and variance statement

Based upon an unusual circumstance or event, past practices, demonstrated hardship, or public benefit, the City Manager is authorized to waive or decrease a fee(s) or charge(s) in a particular matter or establish a fee not yet authorized in this schedule. When a new fee is established by the City Manager it shall be incorporated into this resolution, and it shall be included and specified during the next update to this document. It shall be communicated to Council in writing to allow opportunity for comment. The request for a waiver or reduction may be in writing. If the City Manager or his designee agrees to said waiver or reduction, he/she may inform the City Council, in writing, of the request and his/her decision, except in minor matters (defined as waivers or reductions valued at \$500 or less).

1.3 Billable hourly rates

Unless otherwise specified, the City employee billable hourly rate shall be calculated as 2.5 times step 4 of the employee's job classification, to the nearest \$5 increment. This calculation shall be used to recover costs for those services billed on an hourly basis, including but not limited to professional services such as planning, engineering, public works, utility, financial, legal, and police services. The use of a multiplier of 2.5 is intended to recover all overhead, training, benefits, and other costs associated with a City employee's time. Any work performed during overtime hours shall be billed the calculated hourly rate multiplied by 125 percent. A schedule of hourly billing rates will be maintained. The City Manager or Department Directors are authorized to adjust calculated billings to reflect the impact of unusual circumstances or situations.

2.4. Comparison Graph of Average Utility Bills of Neighboring Cities (on a monthly basis)

This graph compares the average utility bills for the neighboring cities surrounding Milwaukie. As some cities bill monthly, some bill every two months, and some bill every three months, these amounts are converted to average monthly amounts so they are comparable to Milwaukie. Also, cities increase different rates at different times during they year; therefore, this graph is simply a picture in time reflecting the rates at the time that the survey was conducted. And finally, cities have different average water consumption amounts per household; so for the sake of this comparison, these rates are computed using an average 6ccfs of water used per month so as to be most comparable to Milwaukie's overall average. Below are Milwaukie's calculations:

The Metro license allows contractors or landscapers to operate in 20 cities surrounding Portland having licensing requirements in the metropolitan area, excluding Portland. **Exception: if your principal place of business is inside the City of Milwaukie, the business is required to apply for a City of Milwaukie Business Registration in addition to the Metro License.**
