Summary of Proposed Changes

- Milwaukie Municipal Code (MMC) Title 18 Flood Hazard Regulations

The Federal Emergency Management Agency (FEMA) requires that communities keep their local flood hazard regulations current with federal standards to maintain eligibility for participation in the National Flood Insurance Program (NFIP). The City is a long-time participant in the NFIP, which allows property owners within the city limits to purchase flood insurance policies that are federally subsidized and therefore more affordable than flood insurance provided by the private sector.

The proposed amendments are largely administrative and policy-neutral in nature and are specifically designed to ensure that City ordinances relating to development in designated flood hazard areas continue to be consistent with applicable federal regulations for flood management. The Oregon Department of Land Conservation and Development (DLCD) is facilitating this effort and has provided a model ordinance as a guide. The proposal is to repeal the existing MMC Title 18 and replace it with very similar language based on DLCD's model ordinance. (The current code is based on an earlier version of a model ordinance created for the same purpose.)
