### Summary of Proposed Changes

- Municipal Code – multiple sections
  - The proposed code amendments ensure compliance with Oregon Senate Bill 458 and related sections of the Oregon Revised Statutes regarding middle housing and income-restricted housing. The legislation requires cities to allow land divisions for any HB 2001 middle housing type (duplexes, triplexes, fourplexes, townhomes, and cottage clusters) built in accordance with the cities’ middle housing code provisions adopted under ORS 197.758. The result of such “middle housing land division” will be exactly one dwelling on each resulting lot. Cities retain the ability to require or condition certain things, including further division limitations, street frontage improvements, and right-of-way dedication if the original parcel did not make such dedications. However, cities may not subject applications to approval criteria outside of what is provided in the bill, including that a lot or parcel require driveways, vehicle access, parking, min/max street frontage, or requirements inconsistent with House Bill 2001.
  - A brief summary of the amendments is as follows:
    - Amend MMC Section 19.1005 to specify the Type II review process for reviewing Middle Housing Land Divisions and Expedited Land Divisions. The applicable Type II review process must be complete within 63 days.
    - Amend various sections of MMC Title 17 – Land Division to comply with the specific requirements of middle housing and expedited land divisions. Tentative plans for the division must include the following:
      - A proposal for development of middle housing in compliance with the Oregon residential specialty code and applicable middle housing land use regulations,
      - Separate utilities for each dwelling unit,
      - Easements necessary for utilities, pedestrian access, common use areas or shared building elements, dedicated driveways/parking, and dedicated common area,
      - One dwelling unit per each resulting lot or parcel (except common areas), and
      - Demonstration that the buildings will meet the Oregon residential specialty code.
