

Corporal Diffie Veterans Fund

Help veterans in need bridge the 'GAP' to resources and services.

**Gap: Time frame between a veteran's need for help and when the existing Veteran Services are able to respond.*

-BRIDGING THE GAP-

The GAP has long been an acknowledged obstacle veterans face in their time of crisis and need for help due to the existing Veteran Services inability to quickly respond with aid and resources earned and qualified for.

The 'Corporal Diffie Veterans Fund' was established in 2019 through a partnership developed between the Milwaukie American Legion Post 180 and the Milwaukie Police Department. The sole purpose of the fund is to quickly address the GAP by providing veterans or their immediate family members with emergency assistance until existing Veteran Services can respond with resources and long-term solutions.

-HELPING VETERANS IN HONOR AND MEMORY OF SAMUEL-

Milwaukie resident Samuel Diffie served two combat tours in Afghanistan as a rifleman in the United States Marine Corps. Samuel unfortunately experienced the troublesome 'GAP' between his need for help and the unavoidable lead-times for resources and solutions. Sadly, Samuel unexpectedly passed in January of 2018 from natural causes connected to his medical concerns. Samuel was laid to rest in Arlington Nation Cemetery with full honors. In honor and memory of Samuel, the 'Corporal Diffie Veterans Fund' was established to provide emergency aid to our local heroes and their immediate family members during their time of need. 100% of all donations are used to help veterans and their immediate family members bridge the 'GAP' until Veteran Resources are approved and made available.
