

PARKS FOR POLLINATORS

Join us in celebrating pollinators and learning about the vital role they play in supporting a healthy ecosystem! This two-part event is perfect for kids ages 4-10. Whether you have a yard or not, you'll get a chance to participate in crafts and plant flowers that attract pollinators.

SATURDAY, MAY 15

Pick up your free pollinator event kit at our park pop-ups. Choose from Stringfield Park (10 a.m. – noon) or North Clackamas Park (1-3 p.m.).

SUNDAY, MAY 16

Join us virtually as a Master Gardener walks you through age-appropriate activities and crafts to learn about the exciting world of pollinators.

Pre-registration is required. A Zoom link for the virtual activities will be provided following registration. Materials are provided as part of the pollinator event kit, but you will need your own glue, markers, scissors and a pen or pencil.
